

APPLICATION FOR PERMIT  
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Serial No. 13347

Date of first receipt and filing in State Engineer's office MAR 30 1950  
Returned to applicant for correction  
Corrected application filed

U.S. Dept. of the Interior, Fish & Wildlife Service  
The undersigned State of Nevada Fish and Game Commission  
Fallon Name of applicant Churchill  
Reno , County of Washoe  
of Nevada ,  
State of Nevada , hereby make application for  
permission to appropriate the public waters of the State of Nevada, as  
hereinafter stated. (If applicant is a corporation, give date and place  
of incorporation.)

1. The source of the proposed appropriation is Stillwater Slough, other-  
wise known as the Diagonal Drain  
Name of stream, lake, or other source

2. The amount of water applied for is 34.9 second-feet.  
One second-foot equals 40 miners' inches

3. The water to be used for irrigation  
Irrigation, power, mining, manufacturing, domestic, or other use

4. The water is to be diverted from its source at the following point:  
T. 19 N., R. 30 E., M.D.B.&M., Section 34, NW 1/4 NE 1/4  
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land, it should be so stated.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is 2789 acres  
(b) Description of land to be irrigated See Sheet attached  
Describe by legal subdivision, or if on unsurveyed land it should

be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Use will begin about March and end about November, of each year.  
Month Month

IF WATER IS TO BE USED FOR POWER, MINING, STOCK WATERING, OR OTHER USE, SUPPLY THE  
FOLLOWING INFORMATION:

- (d) Power to be developed is horsepower.  
(e) Place of use  
Give location of place of use by legal subdivision  
(f) Point of return of water to stream  
Describe in same manner as point of diversion

(g) State number and kinds of animals to be watered

- (h) Use will begin about and end about , of each year.  
Month Month

(i) Remarks

# DESCRIPTION OF PROPOSED WORKS

Diversion is immediately above an earth dam containing a control gate,  
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water  
 located in Stillwater Slough. Diversion is by canal 16' wide, 6' deep  
is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.  
 with .00025 slope. Flow is into Stillwater Point Reservoir located in  
 Sections 9, 10, 15, 16, 17, 20 and 21, T. 19 N., R. 31 E., M.D.B.&M.

5. Estimated cost of works \$64,500.00

6. Estimated time required to construct works 5 years

The Truckee-Carson Irrigation District of Fallon, Nevada, guaranteed

7. Remarks delivery of waste water to the Fish and Wildlife Service and the Nevada State Fish and Game Commission under terms of an agreement signed by all 3 parties on Nov. 26, 1948. These filings are made for the protection they offer to the State Fish and Game Commission and the Fish and Wildlife Service in the heavy investment being made in the Stillwater Wildlife Management Area and are not meant to interfere with primary use of the water by Truckee-Carson Irrigation District in the operation of the Newlands Project.

APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 34.9

cubic feet per second., but not to exceed 9761.5 acre-feet yearly and not to exceed a seasonal duty of 3.5 acre-feet per acre of land irrigated from any and/or all sources. Actual construction work shall begin on or before

Proof of commencement of work shall be filed before

Work must be prosecuted with reasonable diligence and be completed on or before October 26, 1992

Proof of completion of work shall be filed before November 26, 1992

Application of water to beneficial use shall be made on or before

October 26, 1997. Proof of the application of water to beneficial

use must be filed with State Engineer on or before November 26, 1997

Map Filed MAY 3 1950 Under 13345

WITNESS MY HAND AND SEAL this 26th day

CANCELLED FEB 26 1999 BECAUSE OF FAILURE

OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT

of October, 1987

## (PERMIT TERMS CONTINUED)

This permit is issued subject to all existing rights on the source. It is understood that the 34.9 c.f.s., herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to a beneficial use. A suitable measuring device must be installed and accurate measurements of the water placed to a beneficial use must be included in the proof of such use when filed. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued specifically subject to the agreement dated September 8, 1987 between the Truckee-Carson Irrigation District, Nevada Department of Wildlife and the United States Fish and Wildlife Service.

This permit is issued with the following terms and conditions:

1. The historic record of Carson River flows in the State Engineer's office provides substantial evidence that from time-to-time surplus flows reach the point of diversion described herein.
2. There are no other existing rights either under the Carson River Decree or of record in the State Engineer's office downstream from the point of diversion.
3. The Carson River Decree establishes and determines direct diversion rights for irrigation and other uses upstream from the point of diversion described herein and declares the Carson River and tributaries to be fully appropriated for these purposes.
4. Any water that reaches the point of diversion under this permit has been available for diversion by all decreed users set forth in the Carson River Decree, therefore, the approval of this permit does not conflict with the finding in the decree that the stream system is fully appropriated.
5. Approval of this permit is subject to all existing water rights on the source.
